Dear Marie Read:

**Re: Groundwater Monitoring Well Installation and Sampling Report
Site 5102, Barons**

Thank you for the Groundwater Monitoring Well Installation and Sampling Report dated February 2009, received on March 25, 2009, which was prepared by your Consultant, Hasegawa Engineering. The report was funded by the Tank Site Remediation Program. If you have any questions regarding the report, please contact your Consultant.

We note that your consultant recommends that additional monitoring activity be conducted on- and off-site. **Please have your Consultant submit a cost proposal by April 17, 2009.**

Should you have any questions about your file or the Program in general, please contact me at (780) 415-8665, or toll-free at 1-866-833-3300.

Yours truly,

Steve Hoare
Project Coordinator
