Dear Mr. Wyrostock:

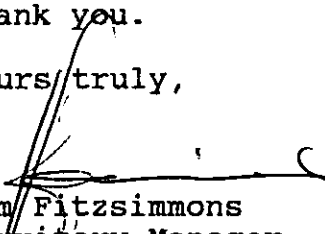

Re: Barons Turbo Bulk Plant
Removal of Underground Fuel Lines

As previously discussed, Canadian Turbo Inc. will be removing the underground fuel lines from our bulk plant to the Barons Hardware. We anticipate that work will be completed by March 30, 1992.

Once work has been completed, you will receive a letter from Canadian Turbo Inc. advising you of such. This letter is an update for your files. Please direct any questions to the writer at 381-3855.

Thank you.

Yours truly,

Tim Fitzsimmons
