Culture and Community Spirit

Notice of Intent to Designate a Provincial Historic Resource

(Historical Resources Act)

File: Des. 2098

Notice is hereby given that sixty days from the date of service of this Notice and its publication in Alberta Gazette, the Minister of Culture and Community Spirit intends to make an Order that the site known as the:

Fensala Hall, together with the land legally described as:

Descriptive Plan 0323284, Block 2, Lot 3A, excepting thereout all mines and minerals

and municipally located in Red Deer County, Alberta be designated as a **Provincial Historic Resource** under section 20 of the Historical Resources Act, RSA 2000 cH-9.

The reasons for the designation are as follows: Fensala Hall, constructed in 1903, is an excellent example of a simple "Prairie Settlement" style of recreational/assembly type facility with a front gable housing a central main entrance. In 1920 the hall was enlarged with a small north or rear addition that reflects the original style and design. The historical significance of the site lies in the role that it played in facilitating the preservation and promotion of the Icelandic culture in Alberta throughout the twentieth century. The site is closely associated with the internationally known Icelandic poet, Stephan G. Stephansson, and was important in keeping together the strongly knit Icelandic community which grew up around Markerville and nearby Hola. Fensala Hall has and continues to be a very important community centre and regional landmark.

It is therefore considered that the preservation and protection of the resource is in the public interest.

Dated this 17th day of March, A.D. 2010.

David Link, (Acting) *Assistant Deputy Minister*
Heritage Division

Notice is hereby given that sixty days from the date of service of this Notice and its publication in Alberta Gazette, the Minister of Culture and Community Spirit intends to make an Order that the site known as the:

Rowley Grain Elevator Row, together with the land legally described as:

Plan RY428, Railway and Station Grounds, in: NW 21-32-20-W4M, containing 7.94 hectares (19.61 acres) more or less, excepting thereout all mines and minerals

and municipally located in Starland County, Alberta be designated as a **Provincial Historic Resource** under section 20 of the Historical Resources Act, RSA 2000 cH-9.

The reasons for the designation are as follows: The heritage value of the Rowley Grain Elevator Row lies in association with the dominant method of storing and transporting grain in Alberta throughout most of the twentieth century. It is also valued as an icon of Alberta's agricultural and social history.

The Searle Grain Company Grain Elevator site is comprised of a single elevator structure built by the Searle Grain Company in 1932, with an office and small fuel shed. It is an early example of the Prairie Vernacular industrial style of railroad structure built to a "standard tall" plan with a grain storage and handling capacity of 44,000 bushels. The structure is an excellent example of crib construction and retains a high degree of integrity with respect to its original design elements, machinery, and material. It is the oldest known extant example of an elevator constructed by the Searle Grain Company in Alberta.

The United Grain Growers-Alberta Wheat Pool Grain Elevator site is comprised of a single elevator constructed by the United Grain Growers in 1920 that was twinned when the Alberta Wheat Pool constructed a single elevator adjacent to it in 1940. The twinned elevators are accompanied by an office building and power-house. Both elevator structures are very good examples of the Prairie Vernacular style and were built to a standard square plan designed by the United Grain Growers in 1917. They retain a high degree of original integrity with some alterations made to accommodate the twinning in 1940. The site complex is a very good example of a twinned elevator complex that shows the materials and mechanical systems used within a two-decade period. The United Grain Growers component is the oldest known extant example of an elevator constructed by the United Grain Growers in Alberta.

It is therefore considered that the preservation and protection of the resource is in the public interest.

Dated this 17th day of March, A.D. 2010.

Notice is hereby given that sixty days from the date of service of this Notice and its publication in Alberta Gazette, the Minister of Culture and Community Spirit intends to make an Order that the site known as the:

Canadian Northern Railway Station and Roundhouse, together with the land legally described as:

Plan Big Valley 8722315, Area (A), (Railway Roundhouse) containing 2.379 hectares, more or less. Excepting thereout all mines and minerals

and

Railway Plan 8493AI, Station Grounds in Township 35, Range 20, West of the 4th meridian, comprising parts of

Section	Hectares	(Acres)
S.W. 26	1.48	3.66
S.E. 26	13.65	33.74
N.E. 26	10.10	24.96

Excepting thereout:

(A) All that portion of the south half of said section twenty six (26) which lies between the south east limit of the said former Station Grounds as shown on Railway Plan 8493AI and a line drawn parallel thereto and three hundred (300) feet perpendicularly distant north westerly therefrom, containing 8.72 hectares (21.55 acres)

(B) All that portion of the north east quarter of section twenty six (26) which lies between the south east limit of the said Station Grounds and a line drawn parallel to and three hundred (300) feet perpendicularly distant north westerly from the said south easterly limit and north east of the production south easterly in a straight line of the north easterly limit of First Street North as shown on Subdivision Plan 4035AF, containing 1.92 hectares (4.74 acres) more or less

(C) All that portion of the north east quarter of section twenty six (26) which lies between the south east limit of the said Station Grounds and a line drawn parallel thereto and three hundred (300) feet perpendicularly distant north westerly therefrom and which lies south west of the production south easterly of the north east limit of First Street North, as shown on Subdivision Plan 4035AF, containing 3.14 hectares (7.75 acres) more or less excepting thereout all mines and minerals and also excepting thereout all mines and minerals and the right to work the same in the south half of section twenty six (26)

and municipally located in Red Deer County, Alberta, be designated as a **Provincial Historic Resource** under section 20 of the Historical Resources Act, RSA 2000 cH-9.

The reasons for the designation are as follows: The historical significance of the Canadian Northern Station and Roundhouse at Big Valley lies in its direct association with Alberta's great railway boom between 1909-1920. On the Alberta Midland line of the Canadian Northern Railway, it housed the offices of a major divisional point, conducted traffic between Drumheller and Vegreville, and oversaw operations of the line west to Rocky Mountain House. The station is also an excellent example of standard railway architecture and is the least altered of the four surviving stations of this kind in Alberta.

The creation of branch lines like the Alberta Midland reflected an unprecedented degree of provincial - rather than federal - investment in railway construction after 1909, and the energy of economic expansion in the years before World War One. The line was intended to provide passenger service and open up lands for farming in the period of settlement, and to tap the rich coal deposits around Drumheller. A townsite was surveyed off the rail line in 1910, the stationhouse built in 1912, and the roundhouse complex between 1912 -18. But the 1922 merger of Canadian Northern Railway with Grand Trunk lines, to create the Canadian National Railway, rendered the line redundant.

The station and site components are also significant as examples of the standard architectural design created for the Canadian Northern Railway's western operations by architect Ralph Benjamin Pratt. It is the only known complex of this nature remaining in the province and constitutes a landmark for the region.

It is therefore considered that the preservation and protection of the resource is in the public interest.

Dated this 17th day of March, A.D. 2010.
