Culture and Tourism

Notice of Intention to Designate a Provincial Historic Resource (Historical Resources Act)

File: Des. 2316

Notice is hereby given that sixty days from the date of service of this Notice and its publication in Alberta Gazette, the Minister of Culture and Tourism intends to make an Order that the site known as the:

Maccoy Homestead, together with the land legally described as:

Plan 1410433
Block 3
Lot 2
Excepting Thereout All Mines and Minerals

and municipally located in the Town of High River, Alberta

be designated as a **Provincial Historic Resource** under Section 20 of the *Historical Resources Act*, RSA 2000 cH-9.

The reasons for the designation are as follows: The heritage value of the Maccoy Homestead rests in its strong representation of the contribution of women's labour to the success of homesteading and agriculture in rural Alberta. Further, the Maccoy Homestead provides an excellent example of the evolution of a farmstead in the southern Alberta foothills.

The Maccoy Homestead strongly reflects the importance of women's labour in rural Alberta through its association with Ruth Maccoy and her mother Evelyn Sheppard, who moved onto the homestead with Evelyn's husband Henry Sheppard, Jr., in 1925. For decades, the labour of Ruth and Evelyn was essential to both the self-sufficiency and commercial success of the homestead – they maintained the household, participated in the market economy (through the production and sale of eggs and dairy products), and assisted with many of the activities and duties associated with large-scale commercial agriculture. The majority of the extant structures on the homestead date from the 1920s, and the particular significance of women's labour is manifest in the completeness of the domestic landscape, including the log cabin and 1925 attachment that served as the main residence, the surrounding gardens that were cultivated by Evelyn and Ruth, the garden/coal shed, and the root cellar. Further, documentary evidence from the 1920s through the 1950s yields significant insight into the range of physical labour performed by Evelyn and especially Ruth on the homestead, including ploughing fields, hauling manure, raking hay, driving horse teams and digging ditches. The site's association with women's labour is further anchored by Ruth's long and continuous residence on the homestead; after Henry died in 1954 and Evelyn died in 1959, Ruth lived alone on the site and maintained a self-sufficient homestead until her own passing in 1995. The labour contribution of women was thus essential to the success of the homestead, and the heritage value of

the site is communicated through the extant structures and landscape elements, particularly those associated with the domestic economy.

Further, the Maccoy Homestead provides an excellent example of the evolution of a farmstead in the Alberta foothills region. The oldest building on the homestead is the log cabin, which dates back to 1883 and was originally built as a fishing cabin for a local resident. In 1887, the property was sold to William Iken who used the site to breed Clydesdales. The homestead continued to be used as a horse-breeding farm until it was sold to the Sheppard family in the early 1920s. The frame addition to the cabin (built in 1925) and the extant outbuildings (built after 1925 and likely before 1940) reflect the homestead's transition from a small horse ranch to a self-sufficient mixed farm that could accommodate a family. The different buildings and construction materials, and in particular the juxtaposition of the log cabin and later addition, reflect the evolving needs and resources of the settlers who occupied the homestead. The buildings provide an effective illustration of the range of activities that took place on the site since the late nineteenth century. Other structures, including a bunkhouse, bedding barn, cow shed, and corral, provide additional context but are not included in this designation. While these structures are still in their original location, they have been impacted by the addition of extraneous buildings moved to Sheppard Park.

It is therefore considered that the preservation and protection of the resource is in the public interest.

Dated this 22nd day of June, A.D. 2015.

STEWARDSHIP MINISTER

Alberta Land Stewardship Act
SA 2009, c. A-26.8, as amended

MINISTERIAL ORDER

12/2015

VARIANCE

PURSUANT TO section 15.1 of the *Alberta Land Stewardship Act*, as amended, I, Shannon Phillips, Stewardship Minister, with written delegated authority pursuant to section 9(1) of the *Government Organization Act*, to exercise the powers respecting the granting of a variance conferred upon me as the Stewardship Minister responsible for the Act, have considered the application for a variance made by Enbridge Pipelines (Athabasca) Inc. (the "Applicant") on February 27, 2015 and their addendum on April 29, 2015.

The Applicant applied for a variance to the Lower Athabasca Regional Plan (Order in Council 268/2012). The Applicant seeks to amend PLA 110283 (Norealis Pipeline) in order to build the Norlite Diluent Pipeline Project at Township 088, Range 07, West of the 4th Meridian adjacent to an existing pipeline corridor.

I am of the opinion that:

- a) the variance is consistent with the purposes of the Act;
- b) the variance is not likely to diminish the spirit and intent of the Lower Athabasca Regional Plan; and
- c) refusal to grant the variance would result in unreasonable hardship to the Applicant without an offsetting benefit to the overall public interest.

Therefore, pursuant to section 15.1 of the Act, I hereby issue a variance upon the terms and conditions attached as Schedule 1.

Dated at the City of Edmonton, in the Province of Alberta this 16th day of June, 2015.

Shannon Phillips
Stewardship Minister

SCHEDULE 1

TERMS AND CONDITIONS OF THE VARIANCE

The Applicant is hereby granted a variance under the Act to construct and operate the Norlite Diluent Pipeline Project at Township 088, Range 07, West of the 4th Meridian adjacent to an existing pipeline corridor, disposition PLA110283 (containing the Norealis pipeline), through the Gipsy-Gordon Conservation Area as established under the Lower Athabasca Regional Plan subject to the following terms and conditions:

1. The Applicant is responsible for obtaining all necessary approvals from any other regulatory agency (federal, provincial, or municipal) to construct and operate all facilities and infrastructure at or related to its Norlite Diluent Pipeline Project.
2. The Applicant shall employ best practices during construction and operation of the Norlite Diluent Pipeline Project through the Gipsy-Gordon Conservation Area in recognition of the conservation area management intent as set out in the Lower Athabasca Regional Plan.
3. This variance expires:
 - (a) upon the expiry, cancellation or termination of the Applicant's existing disposition, PLA110283, as amended, under the *Public Lands Act*, RSA 2000, c. P-40; or
 - (b) upon the Government of Alberta identifying and dedicating a multi-use corridor in the Gipsy-Gordon Conservation Area that includes the Norlite Diluent Pipeline Project its facilities and associated dispositions.
