State the following in bold:

"When does the offer expire?"

Provide the date and time that the offer expires.

Guidance

Refer to paragraph 2.1(6)(b) of NI 45-106 which provides that the prospectus exemption is not available where the exercise period for the rights is less than 21 days or more than 90 days after the day the rights offering notice is sent to security holders.

15. Description of the securities
State the following in bold:

"What are the significant attributes of the rights issued under the rights offering and the securities to be issued upon the exercise of the rights?"

Describe the significant attributes of the rights and securities to be issued upon exercise of the rights. Include in the description the number of outstanding securities of the class of securities issuable upon exercise of the rights, as of the date of the rights offering circular.

16. Securities issuable under the rights offering
State the following in bold:

> **"What are the minimum and maximum number or amount of [insert type of security issuable upon the exercise of the rights] that may be issued under the rights offering?"**

Provide the minimum, if any, and maximum number or amount of securities that may be issuable upon the exercise of the rights.

Identify the exchange(s) and quotation system(s), if any, on which the rights and underlying securities are listed, traded or quoted. If no market exists, or is expected to exist, state the following in bold:

> **"There is no market through which these [rights and/or underlying securities] may be sold."**

PART 3 USE OF AVAILABLE FUNDS

18. Available funds
State the following in bold:

> **"What will our available funds be upon the closing of the rights offering?"**

Using the following table, disclose the available funds after the rights offering. If you plan to combine additional sources of funding with the offering proceeds to achieve your principal capital-raising purpose, provide details about each additional source of funding.

If there is no minimum offering or stand-by commitment, or if the minimum offering or stand-by commitment represents less than 75% of the rights offering, include threshold disclosure if only 15%, 50% or 75% of the entire offering is taken up.

Disclose the amount of working capital deficiency, if any, of the issuer as of the most recent month end. If the available funds will not eliminate the working capital deficiency, state how you intend to eliminate or manage the deficiency. If there has been a significant change in the working capital since the most recently audited annual financial statements, explain those changes.

Guidance We would consider a significant change to include a change in the working capital that results in material uncertainty regarding the issuer's going concern assumption, or a change in the working capital balance from positive to deficiency or vice versa.

		Assuming minimum offering or stand-by commitment only	Assuming 15% of offering	Assuming 50% of offering	Assuming 75% of offering	Assuming 100% of offering
A	Amount to be raised by this offering	$	$	$	$	$
B	Selling commissions and fees	$	$	$	$	$
C	Estimated offering costs (e.g., legal, accounting, audit)	$	$	$	$	$
D	Available funds: D = A - (B+C)	$	$	$	$	$
E.	Additional sources of funding required	$	$	$	$	$
F.	Working capital deficiency	$	$	$	$	$
G.	Total: G = (D+E) - F	$	$	$	$	$

19. Use of available funds
State the following in bold:

"How will we use the available funds?"

Using the following table, provide a detailed breakdown of how you will use the available funds. Describe in reasonable detail each of the principal purposes, with approximate amounts.

Description of intended use of available funds listed in order of priority.	Assuming minimum offering or stand-by commitment only	Assuming 15% of offering	Assuming 50% of offering	Assuming 75% of offering	Assuming 100% of offering
	$	$	$	$	$
	$	$	$	$	$
Total: Equal to G in the available funds in item 18	$	$	$	$	$

If there is no minimum offering or stand-by commitment, or if the minimum offering or stand-by commitment represents less than 75% of the rights offering, include threshold disclosure if only 15%, 50% or 75% of the entire offering is taken up.

Instructions:

1. *If the issuer has significant short-term liquidity requirements, discuss, for each threshold amount (i.e., 15%, 50% and 75%), the impact, if any, of raising that amount on its liquidity, operations, capital resources and solvency. Short-term liquidity requirements include non-discretionary expenditures for general corporate purposes and overhead expenses, significant short-term capital or contractual commitments, and expenditures required to achieve stated business objectives.*

   When discussing the impact of raising each threshold amount on your liquidity, operations, capital resources and solvency, include all of the following in the discussion:

   - *which expenditures will take priority at each threshold, and what effect this allocation would have on your operations and business objectives and milestones;*

- *the risks of defaulting on payments as they become due, and what effect the defaults would have on your operations;*
- *an analysis of your ability to generate sufficient amounts of cash and cash equivalents from other sources, the circumstances that could affect those sources and management's assumptions in conducting this analysis.*

State the minimum amount required to meet the short-term liquidity requirements. In the event that the available funds could be less than the amount required to meet the short-term liquidity requirements, describe how management plans to discharge its liabilities as they become due. Include the assumptions management used in its plans.

If the available funds could be insufficient to cover the issuer's short-term liquidity requirements and overhead expenses for the next 12 months, include management's assessment of the issuer's ability to continue as a going concern. If there are material uncertainties that cast significant doubt upon the issuer's ability to continue as a going concern, state this fact in bold.

2. *If you will use more than 10% of available funds to reduce or retire indebtedness and the indebtedness was incurred within the two preceding years, describe the principal purposes for which the indebtedness was used. If the creditor is an insider, associate or affiliate of the issuer, identify the creditor and the nature of the relationship to the issuer and disclose the outstanding amount owed.*

3. *If you will use more than 10% of available funds to acquire assets, describe the assets. If known, disclose the particulars of the purchase price being paid for or being allocated to the assets or categories of assets, including intangible assets. If the vendor of the asset is an insider, associate or affiliate of the issuer, identify the vendor and nature of the relationship to the issuer, and disclose the method used to determine the purchase price.*

4. *If any of the available funds will be paid to an insider, associate or affiliate of the issuer, disclose in a note to the use of available funds table in item 19 the name of the insider, associate or affiliate, the relationship to the issuer, and the amount to be paid.*

5. *If you will use more than 10% of available funds for research and development of products or services,*

a. *describe the timing and stage of research and development that management anticipates will be reached using the funds,*

b. *describe the major components of the proposed programs you will use the available funds for, including an estimate of anticipated costs,*

c. *state if you are conducting your own research and development, are subcontracting out the research and development or are using a combination of those methods, and*

d. *describe the additional steps required to reach commercial production and an estimate of costs and timing.*

6. *If you may reallocate available funds, include the following statement:*

"We intend to spend the available funds as stated. We will reallocate funds only for sound business reasons."

20. How long will the available funds last?

State the following in bold:

"How long will the available funds last?"

Explain how long management anticipates the available funds will last. If you do not have adequate funds to cover anticipated expenses for the next 12 months, state the sources of financing that the issuer has arranged but not yet used. Also, provide an analysis of the issuer's ability to generate sufficient amounts of cash and cash equivalents in the short term and the long term to maintain capacity, and to meet planned growth or to fund development activities. You should describe sources of funding and circumstances that could affect those sources that are reasonably likely to occur. If this results in material uncertainties that cast significant doubt upon the issuer's ability to continue as a going concern, disclose this fact.

If you expect the available funds to last for more than 12 months, state this expectation.

PART 4 INSIDER PARTICIPATION

36. Fractional securities upon exercise of the rights
